

## What We Offer

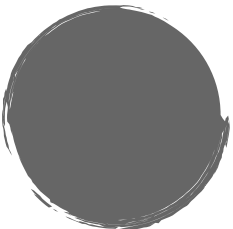

Vibrant Support Services strives to provide family law lawyers and their clientele with a variety of services typically only available in the large firm setting.

We offer:

- Monitored Parenting Spaces: to rebuild the parent-child relationship after a change in the family structure
  - Guided navigation of support services: to help navigate those life challenges that may impact your legal journey
-

### Community Resource Facilitators

Community Resource Facilitators (CRFs) are dedicated to helping you navigate various challenges in your life that may block progress on legal matters. We aim to empower clients by providing connections to resources in their community.

CRFs have knowledge of services offered by local, provincial, and federal government organizations as well as non-profit groups. We may also assist with gathering necessary documentation to apply for programs.

Cost: \$35 per hour

### Monitored Parenting Space

We provide a safe and nurturing parenting space to support the child-parent bond after a separation or divorce.

Families can book the parenting space for 1 to 4 hours during the evenings and weekends where they will be able to actively parent their children. We have books and toys available for all ages and encourage families to bring their favourite activities.

Support workers will be onsite to ensure the best environment for children.

Cost: \$50 per hour
